

I am a citizen concerned about the social and economic impact should the FCC react favorably to this (Bell) petition. The technological innovation, jobs, and community creation that comes from the smaller, independent ISPs must be valued and Protected. It is imperative that the FCC continue to regulate giant ISPs to preserve the unity and diversity of the Internet. The Internet was created by the independent, entrepreneurial spirit, and the freedom of communication it allows can only be maintained by respecting the fact that the technological entrepreneur has a unique and valuable part to play in keeping the Internet thriving.
